

PETA's 'Eat Without Experiments' Program

Statement of Assurance for a Food and Beverage Company to Join the 'No Animal Testing Unless Explicitly Required by Law' List

The undersigned company ("Company") agrees that from ____ day of _____, 20____, it will abide by the following standard:

The Company does not and shall not conduct, fund, commission, or allow any animal testing for any purpose, unless explicitly required by law.

As used in this Statement of Assurance, "animal testing" means all tests that use living and/or dead animals as test subjects, in whole or in part, including, without limitation, amphibians, birds, fish, invertebrates, mammals other than humans, and reptiles.

As used in this Statement of Assurance, "explicitly required by law" means that the only animal testing the Company allows is that which is explicitly required by law or by written requirements having the full force and effect of law by government agencies. An animal test is not "explicitly required by law" if a law or written requirement having the full force and effect of law states that the test is optional or is merely recommended.

The Company shall immediately notify People for the Ethical Treatment of Animals, Inc. ("PETA"), in the event that it is no longer in compliance with the above standard. Upon execution and acceptance of this Statement of Assurance, the Company's name will appear on PETA's list of companies that do not conduct, fund, commission, or allow any animal testing unless explicitly required by law ("No Animal Testing Unless Explicitly Required by Law" list).^{*} In the event that PETA determines, in its sole and absolute discretion, that the Company does not abide by or has ceased abiding by the standard agreed to in the Statement of Assurance, PETA may move the Company's listing from the "No Animal Testing Unless Explicitly Required by Law" list to the "Tests on Animals" list. The Company confirms that it is a corporation, a partnership, or another legal organization. The undersigned hereby confirms that they are the authorized agent of the Company with full authority to execute and ensure compliance with this Statement of Assurance.

Nothing in this Statement of Assurance authorizes the Company to use any intellectual property, including, without limitation, PETA's name and logos.

^{*}This Statement of Assurance and PETA's "No Animal Testing Unless Explicitly Required by Law" list for food and beverage companies *exclude* companion animal care items, companion animal food, cosmetics, household cleaners, household items, personal-care products, and vitamins and supplements produced by those companies. Businesses that wish to have Beauty Without Bunnies certification for these products must submit a separate application to PETA, available at CrueltyFree.PETA.org.
